OPM Form INV 79A, Report of Agency Adjudicative Action form #4 was marked: Resigned, Terminated, or Withdrew Application Prior to Determination - which generated the "please call". The incident you listed was prior to his employment with GSA ... suggest you contact USCIS.

Thanks,

I understand that, you were listed as the Adjudicator and indicated issues and entered the Please Call Alert in the CVS OPM system. I need to find out what the specifics was for misuse of his badge. You were going to research that information. If not you, can you provide me the contact information of the Agency that terminated him, or the person?

**Subject:** Re: Pared Cuevas, Kevin Anthony OPM Case# 1820658489

Good Morning,

Mr. Pared Cuevas was assigned to GSA as a "summer intern" May 2018, with an assignment end date of 09/30/2018. However, subject was terminated 06/10/2018 - the investigation closed 6/27/2018. He was not employed with GSA when the case closed; the case was not adjudicated.

Thanks,

Good afternoon Urline,

Per our investigation, you stated you would have to do some research as to the specific reason Subject was terminated for misconduct while performing volunteer work at USCIS in 2017. Reason was for Unacceptable behavior and using his PIV card inappropriately. Please provide me some additional clarification on how he misused his PIV card. Challenging someone else for their credentials when there is none displayed, should not be a reason. But perhaps there is more information that I do not have. We want to use reciprocity from the investigation that was conducted but we could not determine a favorable adjudication using our OPM CVS validation system. The CVS system has a please call alert with your phone number as the POC at GSA. Please respond as soon as possible because we need to bring him onboard our Agency. Thank you for your cooperation.

The CC's of this email is my Adjudication Team Lead Jackie Brown-Thomas, and Norman Williams is the Personnel Security Specialist reviewing the case for suitability determination.
